Aayan Home Nursing Services

How We Work

Initial Inquiry & Consultation

We begin with a phone or WhatsApp conversation to understand your needs, medical condition, and care expectations.

Home Assessment / Case Evaluation

A qualified nurse or care coordinator may conduct a home visit or tele-assessment to evaluate the environment, patient condition, and specific care requirements.

Care Plan Development

Based on the assessment, we design a customized care plan tailored to the patient's medical condition, daily living needs, and family preferences.

Staff Deployment

We assign a qualified nurse or caregiver best suited for the case, considering both skill level and personal compatibility.

Onboarding & Service Start

Care begins as per schedule, with clear instructions, checklists, and medical protocols in place.

Ongoing Monitoring & Family Feedback

Our field supervisors and coordinators routinely monitor service quality, collect family feedback, and make any necessary adjustments to ensure optimal care.

Aayan Home Nursing Services

What Our Customers Say

"Their caregiver treated my grandmother like family. We couldn't have asked for better home support."

– Anitha P., Mangalore

"Aayan's home nurse helped my mother recover after surgery. Courteous, skilled, and dependable — highly recommended!"

– Suman R., Bangalore

"We hired a caregiver for my father and the experience was excellent. Very professional and caring service."

– Lakshmi N., Udupi
